

## Quick Guide

WebSquare 5

# MapChart

markerDefiner  
markerClass  
markerClassDefiner

## Goal / 목표

Decide whether to display markers or not  
and set the CSS to apply to the markers.

/

지역명 위에 마커를 표시할지 결정하고  
해당 마커에 적용할 스타일을 설정.

## Example / 예제

```
markerDefiner="scwin.mapchart1_markerDefiner"  
markerClass="class1,class2"  
markerClassDefiner="scwin.mapchart1_markerClassDefiner"
```

```
scwin.mapchart1_markerDefiner = function(name, code) {  
  ...  
};  
  <style type="text/css">  
  <![CDATA[ .class1 {fill: orange;}  
  .class1:hover {fill: magenta;}  
  .class2 {fill: blue;}  
  .class2:hover {fill: green;}  
  ]]>  
</style>  
  scwin.mapchart1_markerClassDefiner = function(name, code) {  
    ...  
  };  
}
```
